Fuchsias . . .

We maintain growing plants of all our Fuchsias for display purposes and our garden is a riot of color all during the summer and fall. The public is cordially invited to enjoy this display and here you may see the Fuchsias grown in the various forms; trailing in hanging pots, trained to tree form, and also espaliered. Each year we hold a Fuchsia Show at the Nursery open to the public when Fuchsias are at the height of bloom. This generally occurs in early September and at this time a preview is given of new varieties to appear the following spring. Keep this period in mind as we have thousands of people who eagerly look forward to this occasion.

VARIETIES—While we grow probably the largest number of varieties in the United States we have cut out many of the older varieties in favor of the many beautiful newer ones.

CULTURE—Fuchsias love the shade and moisture and for this reason are well adapted for the shady side of buildings where they give a wealth of bloom. They respond to a rich soil and applications of well rotted manure is advocated with additional feedings of more concentrated plant food. They will not stand an outside temperature below 20 degrees Fahrenheit.

PRICE—Price of all plants except where noted otherwise are as follows:

From 4-inch pots, 35c each.

Many varieties in larger sizes from 50c up.

Trailing varieties in 10-inch hanging pots, \$2.50 each.

Tree or Standard form, \$2.50 each.

SUBSTITUTIONS—When ordering by mail it would be wise to list a few substitute varieties in case certain ones ordered are out of stock. Otherwise we will use our discretion in making substitutions.

SALES TAX—All orders in California add 3% sales tax to the above prices. Orders from 15 cents to 49 cents, 1 cent tax; 50 cents to 83 cents, 2 cents tax; 84 cents to \$1.16, 3 cents tax; \$1.17 to \$1.49, 4 cents tax; \$1.50 to \$1.83, 5 cents tax and for each additional \$1.00 add 3 cents. Orders shipped outside of California are not subject to this tax.

SHIPPING—We prepay all cash orders over \$1.50 in California. Outside of California, shipping charges are to be paid by purchaser. Such orders will be sent charges collect if payment does not cover. For instance, four plants from four-inch pots will weigh three pounds packed for shipment and for each plant over four add one-half pound and rates from the different zones may be computed.

SAMPLE SHIPMENT—To help you get acquainted with these delightful flowering plants we make a special offer of one dozen plants, all named and different for \$3.50, postpaid anywhere in the United States. These plants to be of our selection, although you may designate varieties you already have and we will not duplicate. See page 21 for quantity price.

Fuchsia Species

MACROSTEMMA ALBA SPECIES

ARBORESCENS (Syringaeflora)—Mexico. Erect terminal panicles of small rosy lilac flowers. Different from all other Fuchsias. Strong growing.

BACILLARIS — Mexico. Rosy drooping very small flowers with flaring mouth. Compact grower.

BOLIVIANA (Braziliensis) — Bolivia. Standing more sun and heat, tall growing, free blooming over the summer, with clusters of long thin flowers of scarlet red. Illustrated in color.

CORDIFOLIA — Guatemala. Tall upright shrub, very short corolla of yellowish white shaded red, deep pink to light scarlet tube and short sepals tipped green.

CORYMBIFLORA — Peru. Tall growing with clusters of coral red thin flowers.

CORYMBIFLORA ALBA — Peru. Tall growing like preceding with long thin white tube and sepals and short deep red corolla.

EXCORTICATA—New Zealand. In its native country this variety attains tree-like dimensions. Foliage narrow, dark green, silvery beneath and flowers of dark purple.

FULGENS — Mexico. Large hairy light green leaves with orange vermillion corolla, orange-pink tube with green tipped sepals.

ISIS—Mexico. Medium height, with small glossy blue-green foliage and a mass of tiny bright crimson flowers.

MACROSTEMMA ALBA —

Chile. Tall upright growing variety with small leaves and small blooms of almost pure white in both corolla and sepals. It has the faintest lilac flush to the flower.

MAGELLANICA GRACILIS —

Peru and Chile. Strong growing almost climbing in habit. Small narrow leaves and small thin flowers with narrow red sepals and short purple corolla.

MAGELLANICA GRACILIS VARIEGATA

—Flowers same as Gracilis above with silvery white variegated foliage.

MAGELLANICA RICcartoni—Spreading bushy habit with red sepals and large purple corolla.

PROCUMBENS—New Zealand. A trailing variety with tiny leaves and short orange tube with reflexed purple sepals, no corolla. Blue stamens. Fine for the rock garden in the shade. Red fruit.

REFLEXUS—Small bushy plant with tiny flowers of orange scarlet and reflexed red sepals.

SERRATIFOLIA—Peru and Chile. Long tube white tinted carmine shading to green at tips of sepals, deep orange pink corolla shading to carmine base.

SPLENDENS — Mexico. Bushy habit of growth with bright orange tube and sepals tipped green, corolla orange red.

THYMIFOLIA—Mexico. Minute flowers in profusion with tiny crimson sepals and petals. Tube of lighter shade. Prominent white stamens. One of the smallest flowers of the group.

FUCHSIA BOLIVIANA

Trailing Fuchsias

For window box culture, hanging pots and baskets.

Trailing Fuchsias in 10-inch hanging pots complete with plant and pot and wire hanger at \$2.50 each and up. See black and white illustration.

PRICE—Price of all plants except where noted: 4-inch pots at 35c each; 6-inch pots at 50c each.

AUTUMNALE (Meteor) — Highly colored foliage of bronze and orange, flowers scarlet sepals and purple corolla.

AMERICA (Niederholzer) — Single orange red corolla with long sharp pointed sepals, deep rose pink on outside, bright rose red on inside. Greenish white tips. Long thin tube, flesh tinted rose pink. Good grower and with a little training will make a fine hanging Fuchsia.

BALKON—Trailing habit which may be staked up and allowed to droop when it may be well shown with its deep pink corolla and lighter pink sepals. Medium sized flowers. Very fine.

BUTTERFLY (Reiter Sr.)—Trailing single flowered glorified Muriel. Self color with sepals and corolla of Rose Bengal and Crimson. Corolla is very large and spreading.

COVENT GARDEN—Long flowers with deep pink corolla and white tube and sepals.

CASCADE (Dr. Legan)—One of the finest trailers produced, good grower and fine foliage. Masses of large single blooms, long pointed sepals white flushed carmine and deep carmine corolla, spread of sepals usually about six inches.

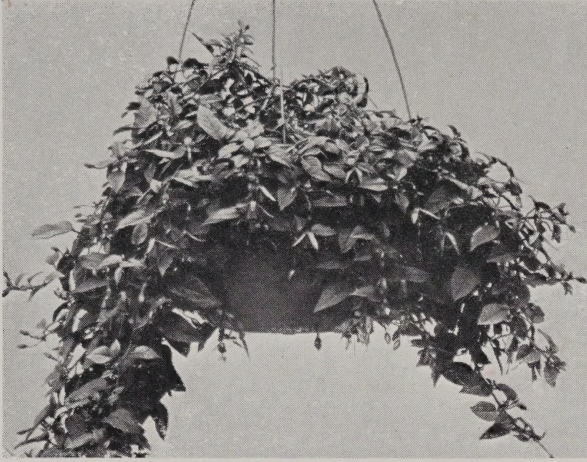

BETTY (Hazard & Hazard) — Trailing small semi-double, tube and sepals rose red, corolla rich creamy white veined rose red.

CLARET CUP (Dr. Legan)—A large single with a corolla of Rose Bengal edged deep magenta. The large recurved sepals are pale carmine. A striking plant in the garden where it gives a clear strong color.

EVELYN LITTLE—Medium sized flower with rose pink corolla flushed lavender blue, sepals deep pink. Semi-trailing.

FALLING STARS (Reiter, Sr.)—Trailing. A glorified Morning Mist. Tube and broad sepals of a pale carmine scarlet. Large corolla of deep brick orange red.

Trailing Fuchsias—(Continued)

HANGING POT

GALLI-CURCI—Large single flower; tube as long as corolla, sepals flaring and reflexed. Large oval bud of shell pink. Tube and sepals waxy shell pink, stained rose pink on reverse side. Petals pink suffused with violet pink. Habit is spreading and weeping. A vigorous grower; profuse and long bloomer.

FIREFALL (Victor Reiter, Jr.)—

Long tube and long sepals of carmine with single elongated petals of fuchsia red. A gorgeous trailer with bronzy red foliage and stem.

HALLOWE'EN (Dr. Legan) —

Very large single flower with deep rose single corolla and very lightly flushed pink sepals. A good mate for Cascade.

INCA MAIDEN (Schmidt) —

Trailing, single corolla of violet blue, long narrow rose pink sepals. Medium sized flowers with free flowering habit.

MARIPOSA (Reiter, Sr.)—A trailer with

very long thin flowers. Single corolla of dark carmine changing to Geranium Lake at the base. Recurved sepals of satiny scarlet. Very fine hanging type.

FIREFALL

Trailing Fuchsias—(Continued)

MARINKA (Red Cup) —Almost a self color with rosy scarlet corolla and crimson scarlet sepals. Semi-trailing but making a fine display when staked up to show the blooms.

MRS. VICTOR REITER (Reiter Sr.)—A long tubed single bi-color. The plant is of a weeping habit and the flowers of the Mrs. Rundle type, one of its parents, with exactly the same fine tube and sepals but with a finer more opulent corolla. The corolla is pure crimson fading to creamy white at extreme base. The slender sepals and the long tube are creamy white occasionally tinted pale rose.

MELODY (Reiter, Sr.)—Beautiful single flowered Fuchsia of soft pastel shade. Large flowers with the corolla of pale Cyclamen purple and recurved sepals of pale Neyron rose. With training might be developed as a hanging type.

MURIEL — Scarlet sepals, large single twisted petals of rosy lilac. Fine.

CASCADE

PROCUMBENS—See species for description.

TRAILING QUEEN — Trailing habit with fuchsia red corolla and long pointed bright scarlet tube and sepals. Very showy.

TRAILING KING—Trailing habit as preceding with lighter colored corolla and sepals.

SAN FRANCISCO (Reiter, Sr.)—Trailing type. A rather thick translucent tube and the sepals are a pale carmine rose in the inside and carmine rose on the outside. Large single corolla of pure deep orange red.

WISTERIA (Neiderholzer)—Strong growing Fuchsia with a narrow long tube and oblong bud of almost white with very pale green tip. The inside of the sepals is tinged with Phlox pink. The single corolla is Mallow purple, irregular with each petal on a long peduncle. In addition each sepal rolled up carries a miniature petal on its base.

Note:

Trailing Fuchsias grown in hanging pots should be cut back severely each spring before growth begins, to promote new growth from the crown. Fertilize during the growing season each 5 or 6 weeks for best results with a good nitrogen fertilizer.

Single Flowered Fuchsias

ALICE HOFFMAN—Compact bushy plant with masses of medium sized flowers with white corolla and rose colored sepals. Very fine.

AMELIA AUBAN—Single white tube and sepals, rosy cerise corolla.

AMY LYE—Upright grower with white sepals flushed delicate pink and reddish salmon corolla.

ANNIE EARLE—Deep pink shaded orange corolla, tube and sepals waxy white, very lightly shaded pink. Tall.

ANTIGONE—Large loose growing plant with gorgeous single flowers of waxy white sepals and deep orange pink corolla. Individual in form and color of flowers. 50c each.

APRIL—Dwarf, compact habit with bright red sepals, single violet corolla.

AURORA BOREALIS (Speciosa) — Bright orange red corolla with narrow pointed sepals of soft pink tipped green. Tall.

AURORA SUPERBA—Sepals and tube of light orange apricot, corolla of deep orange peach. One of the very fine importations of a few years ago.

AVIATOR (Deiner)—Long twisted red sepals and long white petals. A fine variety.

BEAUTY OF SWANLEY (Villa Hebe)—Very soft rose corolla and long pointed white sepals very lightly tinted pink. A fine variety.

BEVERLY HILL (Evans & Reeves) — A strong grower with enormous single flowers and corolla of a wonderful shade of burgundy red. Long elegant sepals of glowing pink with white striping.

CALIFORNIA (Evans & Reeves)—Tall vigorous grower with good sized flowers of bright orange and sepals of coral pink. A fine one for growing into tree form.

BLUE MOON (Niederholzer) — Large single deep blue purple corolla and red sepals.

BRILLIANT—Masses of bloom with scarlet sepals and violet corolla.

BRUTUS—Rich dark purple corolla with carmine base, rich scarlet sepals. Bushy compact growth.

CARMENCITA — Semi-double white with carmine veins, the outer row of petals suppressed, bright scarlet sepals.

CLAIRE DE LUNE (Moonlight)—Broad leaves similar to Monterey. Long narrow blooms of salmon-orange, corolla flaring out at end of tube.

COCCINEA FLOREAN—Long violet purple corolla shaded carmine at base with long pointed scarlet sepals. Very free flowering.

COUNTESS OF ABERDEEN (Schneewitschen) — A gem in the Fuchsias with small pale pink, sometimes white corolla, with white tube and sepals.

CUPID—Deep blue pink corolla and deep pink sepals. Medium growing with an abundance of bloom. Fine for pot culture.

CURLY WURLY (Neiderholzer)—Strong upright plant with an abundance of flowers. The turkey red sepals are oddly curled and whirled. The single corolla of very fine bell shape is a very dark violet purple, lighter at the base and with brilliant red streaks.

DIANE (Hazard & Hazard)—A generous bloomer with a corolla of cameo pink and the sepals and tube a waxy white.

DISPLAY (Karl Blanc-Prince Charming) —Saucer shaped corolla with broad petals of deep pink set upon clear pink sepals. Medium growing.

DUCHESS OF ALBANY—Tall growing with masses of flowers, deep reddish pink corolla set upon waxy white sepals faintly tinted.

Single Flowered Fuchsias

—(Continued)

EARL OF BEACONSFIELD — Very long light carmine tube and sepals with short vermilion corolla.

ERNEST RENAIN — Rich rose pink corolla shading to white at base, inflated tube and sepals waxy white.

ERECTA NOVELTY — Single white and light pink, corolla margined with rose. Flowers erect.

ESPERANZA (Reiter, Sr.) — Single corolla shading from Fuchsia Purple at base to paler shade at edges. Sepals are dark Rose Madder. A strong upright grower with good clean foliage.

FANFARE (Reiter, Sr.) — Very large trumpet shaped flower with an amazing rich coloring. Exceptional vigor and fine foliage. The long narrow tube and sharply pointed sepals of a varnished turkey red. The large flaring corolla is of pure scarlet.

BEAUTY OF SWANLEY

FANFARE

FORMOSISSIMA — Tube and sepals creamy white, single soft rose corolla.

GAY SENORITA — Single bell shaped corolla deep lilac flushed rose with distinct light border edging the petals. Sepals long and spreading, deep rose red. Good grower and free flowering.

GLENDALE (Evans & Reeves) — A tall growing vigorous Fuchsia with a profusion of rather small dainty single coral pink flowers. They say will stand full sun.

GEROLDSTEIN — Tall loose growth with blue purple corolla veined carmine at base and with incurved light carmine sepals.

Single Flowered Fuchsias—(Continued)

ERECTA NOVELTY

HENRI POINCARE

LEO DELIBES

LUSTRE IMPROVED

Single Flowered Fuchsias—(Continued)

HARLEQUIN (Hazard & Hazard) — Unusual with rose red sepals, long slender curled and twisted (pinwheel-like) with corolla of madder violet much striped with rose red, base of petals rose red.

HAUT MONDE (Hazard & Hazard)—Single corolla of tyrian rose, sepals creamy white washed with tyrian rose. Lovely foliage and they say a most charming fuchsia.

HENRI POINCARÉ—Long violet blue corolla and pointed red sepals. Very fine.

HERON—Very large corolla of blue purple flushed carmine at base, broad scarlet sepals with deep crimson on reverse. Very fine medium grower.

JANE EVANS (Evans & Reeves) — Large single blossoms of coral and salmon with petals a vivid shade of salmon and cerise. Vigorous grower.

JUNE CAROLYN (Evans & Reeves)—Long single flowers with corolla of coral blended with carmine and orange pink sepals. Tall grower with fine foliage.

JULIUS—Tube and sepals red, single rosy lavender corolla. Very attractive.

LEEANNA BELL (Hazard & Hazard)—Single pink and violet corolla, petals edged red, sepals and tube pink. Very graceful habit.

LEO DELIBES—Large single violet purple corolla and soft pink sepals.

LITTLE BEAUTY—Dwarf compact bush, very free flowering with lavender blue corolla changing to rosy lavender, deep pink sepals.

AVIATOR

LORD BYRON—Dwarf bushy habit with medium sized flowers of deep velvety purple corolla and short tube and sepals of bright scarlet.

LOS ANGELES (Evans & Reeves)—Beautiful long single flowers of waxy coral apricot and petals of deep orange suffused with vermillion.

LOVELINESS — Tube and sepals waxy white, single violet pink corolla, edged carmine.

LUCIENNE BREVAL—Single long slightly twisted corolla of white delicately shaded rose. Long pointed softly tinted sepals.

LUSTRE IMPROVED—Medium growing with bright orange red corolla and creamy white tube and sepals.

MME. AUBIN—Vigorous grower with deep orange pink corolla and soft salmon sepals.

Single Flowered Fuchsias—(Continued)

MADAME THIBAUD—Strong tall growing with long pointed bud opening to cup-shaped corolla of bright violet rose. Long narrow deep rose sepals. Heavy masses of bloom.

MADMOISELLE (Reiter, Sr.)—A bush type strong and vigorous with the blooms coming in continuous profusions on the tips of every branch. The tube is white blotched crimson and the sepals white tipped green. The medium small single corolla is of clear pale rose.

MME. CORNELISSEN — Long single white corolla with bright scarlet sepals.

MELODY (Reiter, Sr.)—Beautiful single flowered fuchsia of soft pastel shade. Large flowers with the corolla of pale Cyclamen purple and recurved sepals of pale Neyron rose. With training might be developed as a hanging type. See back cover for illustration.

MEPHISTO (Reiter, Sr.)—Strong growing upright type with very brilliant flowers of medium size with the entire flower of the deepest crimson.

MONTEREY — Bright orange pink short corolla, narrow and sharply pointed sepals of soft pink delicately shaded orange. Broad leaves.

MRS. J. D. FREDERICKS (Evans & Reeves) — Fast growing plant with masses of dainty salmon pink blossoms. Should be allowed to grow into a large spreading specimen. (And they say will grow in full sun.)

MRS. MARSHALL—Creamy white sepals and rosy cerise corolla.

MRS. LOVELL SWISHER—Dainty slender single flowers with long tube of flesh pink, sepals white, petals deep old rose. Tall, vigorous and extremely floriferous; we consider this fuchsia a charming addition to the family.

MRS. RUNDLE—Very long tube and very long pointed sepals of flesh color, with vivid orange corolla. A real beauty.

MRS. W. H. WARE (Hazard & Hazard)—Sepals long reflexed white flushed pink, corolla blue violet, pink at base changing to beautiful red violet in aging flowers. Tall and graceful.

MU LAN (Hazard & Hazard)—A healthy strong growing fuchsia, naturally producing a tall well formed bush. Good foliage and very floriferous. Single corolla of creamy white veined light rose red with four large petals with edges picoteed. The long sepals light rose red in side, waxy dark rose outside. Much recurved.

MURIEL EVANS (Evans Gardens) — Medium sized single flowers, sepals and petals of rich scarlet.

OLYMPIA—Pale rose pink sepals, single carmine scarlet corolla.

PACIFICA (Neiderholzer) — Extremely floriferous with the crimson upright sepals slightly twisted. A single and semi-double corolla of orchid purple lighter at the base and darker on edges with fine crimson veins. See back cover for illustration.

PASTEL (Reiter, Sr.) — The great improvement over the introduction, Treasure Island. Short tube and large broad sepals of pale Neyron rose with the single corolla of old rose shaded lilac. Strong grower.

PERKY (Hazard & Hazard)—Sepals waxy white, very sharp pointed tips of deep pink. Corolla single pink. Habit of growth tall and upright. Foliage small and neat.

PRINCE OF ORANGE — A real gem of slow growth with deep orange vermilion corolla and soft carmine tube, sepals of deep salmon pink.

QUEEN OF BEAUTIES — Waxy white sepals, single rosy carmine corolla.

Single Flowered Fuchsias—(Continued)

SAN FRANCISCO

SILVER BELL — Small single flowers, short tube, flaring sepals, bell shaped corolla, pistil over three times as long as corolla. Tube and sepals bright pink, petals silvery orchid. Foliage very light green. Extremely tall, vigorous grower to as high as 12 feet. A climbing type in a new color with a multitude of charming flowers.

STANFORD (Hazard & Hazard)—Sepals red and corolla single white. New foliage beautiful bronzy color.

STARLIGHT — Large deep rose pink corolla shading from white base, creamy white tube and sepals. Dwarf.

ROSE OF CASTILE

—Small flowers of short corolla of lavender flushed rose and shaded lighter at base of petals. Tube and sepals of delicate rose color.

ROSE OF CASTILE

IMPROVED—

Growth more erect with corolla of deeper blue shading and sepals of deeper pink.

ROSE OF DENMARK

—One of the best with corolla of pale rose shading to deeper rose at edge of petals, reflexed pale blush sepals.

ROSE PILLAR (Rei-

ter, Jr.)—In our estimation one of the finest fuchsias in an entirely new color. The plant is strong and tall, resembling Pink Pearl in foliage and vigor. The flower is a single large saucer-shaped type. The entire flower

is of clear Neyron rose edged with a thick margin of geranium lake.

SUNRAY—Ornamental variegated foliage, silvery white and green. Rosy purple corolla and salmon sepals.

SUNSET (Niederholzer) — Single open saucer shaped flower of deep salmon orange.

SUNRISE (Reiter, Sr.)—Single corolla of clearest scarlet with tube and sepals white flushed rose tipped crimson. Upright strong growing plant of free blooming quality.

SWANLEY YELLOW — Extra long tube and sepals of light apricot and deep orange pink corolla.

Single Flowered Fuchsias—(Continued)

THE DOCTOR—Deep pink to deep rose corolla with long pointed sepals of soft salmon pink. Very fine and showy.

THOMASINA—Medium sized flowers, flesh colored sepals, dark henna orange petals.

VALIANT—Very large individual flowers and large masses of blooms with rosy red corolla and bright scarlet sepals.

VENUS VICTRIX—Small very distinct type with deep violet blue corolla and white sepals delicately tinted pink.

WHITE BEAUTY—Open saucer shaped corolla of single white petals lightly veined scarlet, scarlet sepals reflexed back against the short tube.

GARTENMEISTER BONSTEDT

Triphylla Hybrids

CHRISTMAS GEM (Rottengen) — Long thin vermilion red tube with short orange red corolla. Bronze red leaves with velvety sheen. Terminal flower clusters.

CORALLE—Large clusters of rich orange salmon flowers. Blue green leaves.

GARTENMEISTER BONSTEDT — Flowers glowing brick red with orange shading. Dark bronze red foliage.

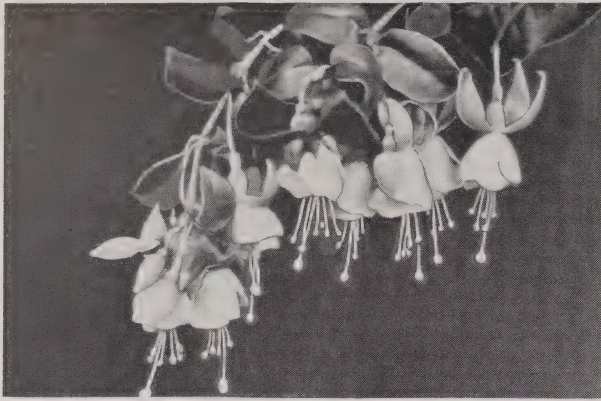

LEVERKUSEN (Triphylla hybrid) — Large single flowers with rosy salmon corolla and sepals. Free flowering. Very fine.

ROCKET (Reiter, Sr.) *Triphylla* Type—Terminal clusters of tubular flowers somewhat inflated. The tube and sepals are Turkey Red and the tiny corolla of Poppy red. Growth low and shrubby with beautiful ruddy foliage.

SOUVENIR DE HENRY HENKEL (Andenken a H. Henkel)—Long tube and sepals of deep pink, short orange pink corolla. Reddish foliage. Dwarf habit.

TAUDESCHEN BONSTEDT—Long tubular flowers in clusters of pale salmon pink color.

THALIA—Bronze green foliage and long orange scarlet sepals and short orange red corolla. Tall upright growth.

Double Flowered Fuchsias

ABBEY FARGES

ABBEY FARGES—Tall upright growth with masses of medium sized flowers, the corolla a silvery lilac and deep pink sepals.

ALICE EASTWOOD (Hazard & Hazard)—Large semi-double with heavy reflexed sepals of crepy white and washed rose red. Corolla white veined rose red.

ALFRED RAMBEAU—Double violet purple corolla and scarlet sepals.

ANDRE LE NOTRE—Extra large flower of prune blue corolla changing to carmine flush, broad scarlet sepals. A fine double.

BALLET GIRL—Tube and sepals bright red, corolla white veined cerise at base of petals. Different from other whites.

BERLINER KIND — Large double white with carmine base, deep clear pink sepals. Low, almost trailing.

BLUE GOWN—Deep blue corolla, light carmine tube and sepals. A fine variety.

BUFFON—Corolla blush white with scarlet sepals.

CAMELLIA — Large double white with spreading petals flushed cerise and crimson sepals.

CRISTAL — Semi-double white with long corolla and scarlet sepals.

CONSTANCE—One of our own hybrids from Pink Pearl, and is one we very highly recommend. Same upright habit with double blue shaded pink corolla and soft pink petals. Very free blooming.

CRESCENDO (Reiter, Sr.)—Double flowered with the outer one-third of corolla Peony Purple and the margins and lower two-thirds are Turkey Red. Sepals are Turkey Red. Shrubby upright type of good growth and continuous bloom. The most red double Fuchsia.

CONSTANCE

Double Flowered Fuchsias—(Continued)

DAINTY LADY—A charming variety of neat bushy habit, semi-double corolla of white veined carmine at base, tube and sepals deep red.

DANUBE BLUE—Double blue spreading corolla with deep pink sepals. Very fine.

DOLLAR PRINCESS—Short full double corolla, purple shaded rose at base changing to rosy purple, scarlet sepals.

DR. JOHN GALLWEY (Reiter, Sr.)—The flowers of this variety are exceptionally large with a full double corolla of a rich creamy white veined at the base with rose madder. The sepals are broad and large pointing upward and outward from the corolla of the pure rose madder throughout. The flower stems are quite long allowing the large flowers to hang well out from the foliage.

DUCHESS OF EDINBURGH—Very large double white corolla and deep pink sepals.

ELSA—Rosy purple corolla and tube and sepals wax white flushed rose pink.

FASCINATION (Irwin's Giant Pink)—Compact bushy plant with full corolla of soft rose petals, streaked and flushed deeper, deep pink sepals. A very fine variety.

FLOCON DE NEIGE—Semi-double white of quite pure color with petals loosely arranged, sepals bright red. Very fine.

GENERAL ROBERTS (Phenomenal) — Large rich plum purple corolla streaked carmine at base, reflexed scarlet sepals

GERBERT—Outer row of petals bright scarlet, streaked and splashed deep purple, inner rows all deep purple, bright scarlet sepals.

CAMELLIA

G. MONK—Compact grower, fine for pot culture. Fine blue corolla and deep pink sepals.

GEORGE PORTESI—Violet blue corolla with scarlet veins, scarlet sepals. Very large flowers.

GLOIRE DE MARCHI—Medium grower with medium sized white corolla and deep pink sepals.

GLADIATOR — Dwarf habit with white petals flushed pink at the base. See color plate.

GRENADIER — Long pointed scarlet sepals and full double violet purple corolla. Very large.

GUY DAUPHINE — Violet plum corolla splashed carmine, carmine sepals.

Double Flowered Fuchsias—(Continued)

FASCINATION (Irwin's Giant Pink)

GYPSY QUEEN—A very fine Fuchsia. Enormous flowers with deep crimson sepals and rosy mauve petals. Highly recommended.

HAF HAZARD (Hazard and Hazard)—Rich deep purple with fine white line around edge of each petal, scarlet sepals.

IRWINS GIANT PINK—See **FASCINATION**.

IVOIRE—Short full double ivory white with crimson sepals.

JOHN McLAREN (Hazard & Hazard)—Large semi-double flowers with nicely shaped spiral tight corolla of light hyssop violet, sepals very heavy waxy texture, lacquered red outside and much lighter color inside. Both foliage and flowers of heavy waxy texture. Very fine and different from any other fuchsia.

JULES DALOGES—Corolla rich violet tinted red, very large double, reflexed scarlet sepals.

JOHN McLAREN

Double Flowered Fuchsias—(Continued)

G. MONK

LENA

GYPSY QUEEN

GLADIATOR

Double Flowered Fuchsias—(Continued)

JULIETTE ADAMS—Tall upright grower with white and red streaked flowers and scarlet sepals. A fine variety.

KITTY O'DAY (Hazard & Hazard)—Very double. Tube and sepals rose red. Corolla white washed and veined rose red. Petals beautifully cupped or rolled in edges, rose-like. A handsome large very floriferous variety.

LA FRANCE—Dark blue purple corolla, bright red sepals.

LAVENDER BEAUTY — Beautiful lilac suffused rose, carmine veins, broad, deep pink sepals.

LENA—Double rosy blue corolla with colored sepals.

LILAC QUEEN—Dwarf bushy habit with medium sized rosy lilac flowers, deep pink sepals.

MADAME DANJOUX — Fine double white heavily suffused carmine, red sepals.

MAUVE BEAUTY — Beautiful short corolla of lilac mauve with deep pink sepals. A real beauty.

MICHELANGELO—Sepals crimson, large double violet plum corolla, veined red.

MISS B. HESSE—Bushy habit with masses of white veined rose, scarlet sepals.

MME. CARNOT—Very large full double pinkish white corolla with red sepals.

MME. JULES CHRETIEN—Double white corolla, red sepals.

MME. LANTELMA—Very large full corolla of soft pink with crimson sepals.

MME. J. FEUILLET — White heavily flushed pink with deep pink sepals. Very large.

MOLESWORTH — Full double snowy white, scarlet sepals.

MR. GLADSTONE—Very full plum purple corolla, crimson sepals.

MRS. DESMOND (Introduced by Hazard & Hazard)—Large flowers, sepals rose red inside, darker outside. Corolla light amparo purple exquisitely veined.

MRS. GIDEON BROWN — Large double violet purple corolla with scarlet sepals.

MRS. GLADSTONE — Very large double white veined crimson, bright clear pink sepals. One of the best.

OAKLAND (Reiter, Sr.)—Huge very double Fuchsia with a corolla of rosy white heavily veined with crimson. Short broad upright sepals of crimson. The plant is strong and compact, capable of producing the largest double white blooms.

PASTEUR—Tall upright growth with masses of silvery white flowers and reflexed deep pink sepals. Very popular.

PATTY EVANS (Evans & Reeves) — A vastly improved Rolla of which it is a seedling. The plants are extremely vigorous growing to a height of 5 to 6 feet with large double flowers with corolla pure white and long elegant sepals of waxy white tinted a soft rose on under side.

PRIDE OF ORION

Double Flowered Fuchsias—(Continued)

PAVLOVA (Hazard & Hazard) — Single corolla light rose pink nicely veined with rose red. Sepals deep rose pink washed with rose red. Long broad sepals fold back against the tube and the corolla of just four large beautifully shaped flaring petals is outstanding.

PERLE MAUVE — Very fine violet blue corolla and deep pink sepals.

PHENOMENAL — See GENERAL ROBERTS.

PINK BALLET GIRL — Large blue pink corolla with white flushed carmine sepals. Very fine and very free blooming.

PINK PEARL — A real beauty in a tall upright plant with masses of clear double pink flowers and light pink sepals. A favorite with us.

PRIDE OF EXETER — Long corolla with large broad petals of deep rose lightly suffused violet. Long pointed reflexed sepals of light rose. Tube white shaded pink.

PRIDE OF ORION (Pride of Oxford) — Large loosely arranged white petals veined and splashed crimson and scarlet, long pointed reflexed sepals of brilliant scarlet. One of the finest double white fuchsias. Medium grower.

PRINCE OF MAY — Tall growing with violet blue corolla and scarlet sepals. Very large flower.

REITER'S GIANT (Reiter, Sr.) — One of the largest double flowered Fuchsias. The tube is short and thick and the broad sepals of pure carmine. The corolla is globular often exceeding three inches across with the color of the sepals splashing into the base of the corolla of crimson. The bulk of the corolla is of a deep blue purple. A good bush variety.

ROLLA — A very distinct variety with white corolla and white sepals suffused with pale pink. One of the most popular in our collection.

ROSECROFT (Rosecroft Gardens) — Holly-leaved fuchsia. Foliage resembling holly leaves. Long beautifully formed blossoms of striped pink corolla and long curved sepals of carmine.

RONSARD — Medium sized flower of violet purple with deep pink sepals. Very free blooming and tall grower.

ROSE PHENOMENAL — Very large flowers, very full corolla of violet lavender suffused rose and veined crimson, broad deep crimson sepals. A fine variety.

ROYAL PURPLE — Corolla most intense vivid purple, tube and sepals scarlet. Very showy.

SANTA MONICA (Evans Gardens) — Very large double flowers, bright red sepals, white petals changing to pink and veined cerise. Vigorous.

SCABIEUSE — A fine French importation with deep blue purple petals shaded lighter at the base, red sepals.

SCINTILLATION (Hazard & Hazard) — Sepals long, reflexed, tyrian rose inside, darker outside. Corolla single to semi-double with edges of petals picoteed. Strong grower.

STORM KING — Elongated and inflated bud of bright scarlet tube and sepals, corolla double waxy white with crimson veins at base of petals.

SUZANNE PASQUIER — A very fine variety with fine foliage and large pointed buds, opening to white with scarlet sepals.

TENOR — Deep violet rose corolla with crimson sepals.

TORPILLEUR — Loose white petals flushed and definitely veined with carmine, scarlet sepals.

THE BRIDE — A large double pure white corolla with almost pure white sepals. In the shade with very little sun there will be no color, otherwise the sepals will have a slight pink tint. \$1.50 each.

VELASQUEZ — Large double white streaked and flushed carmine with deep pink sepals.

Double Flowered Fuchsias—(Continued)

FUCHSIA JULES DALOGES

VERA SERGINE—Another very fine variety on the Rolla type. Semi-single white corolla and very light pink sepals.

VICTORY (Reiter, Sr.)

A semi-double that rates at the top of the list. The very large flowers appear as a crimson self. The corolla, long incurved type, is of a solid Rose Madder. Flowers resemble Pride of Exeter but more refined and more evenness of color. Another you can't do without.

VINCENT D'INDIE—

Enormous violet purple corolla, suffused carmine, carmine sepals. One of the fine new doubles.

VINCENT D'INDIE

VISIT OUR GARDENS—We maintain specimens of all fuchsias growing in the nursery for display of bloom and a visit to our nursery during the summer will acquaint you with the possibilities of bloom. It's a sight worth seeing. You're welcome at any time.

Late Fuchsia Introductions

CONCHILLA—

Short semi-double corolla of amethyst violet changing to rhodamine purple. Sepals fully rolled upEach 60c

COQUETTE—

Red tube, white sepals and bluish purple single corolla. A very fine Fuchsia that will make a good hanging pot variety.....Each 60c

CORA BRANDT—

The very thick tube and wide spread sepals are solid crimson. The wide open corolla is rose madder, tinged with geranium lake. Vigorous growth and fine foliageEach 60c

FLAMENCO—

Tube and bud very long and slender, very narrow and extra long sepals of twisting habit—single corolla of almost self rose pink.....Each 60c

FRANK E. HENRY—

Fluffy large semi-double corolla of pure white with tube and sepals of very pale pinkEach 60c

LUCKY STRIKE—

An unusual colored Fuchsia in rather striking combination of blue-purple-pink and gray tones. Globular in form and quite double.....Each 60c

MINUET—

Very floriferous in brilliant red sepals and purple single wide open corolla. Upright growthEach 60c

MRS G. G. HENRY—

Trailing form with pale pink sepals and single white corolla....Each 60c

PRIMA DONNA—

A perfect form flower with single very large corolla and very pale pink sepals. A beautiful FuchsiaEach 60c

SERAPHINE—

Large single wide spread corolla of dark cyclamen purple and upright sepals of deep pink. DistinctEach 60c

NOTE: Any 3 or more of the above at 50c each or the entire 10 for \$4.50
